Smart Power Strip Make:

Cost of Smart Power Strip:

Smart Power Strips are a way to reduce the amount of power being drawn by computers and electronics accessories when they are not in use. A study by the Department of Energy showed that 15% of the energy used in the average home is just for standby current. The smart strips save on average \$30 per year

The rebate is 25% of the cost, up to \$25.

For Pascoag Utility District use only
